Has used...

ORPHEUS x2

CIARAN BYRNE
Engineer & Producer, Cauldron Studios

“I had been looking for a microphone that could capture the true sound of our grand piano, but, despite trying the usual AKG C414s, Neumann M149s and 103s, and several others, I’d never been 100% satisfied.

“A friend suggested that I try the Sontronics ORPHEUS and I was simply amazed at the results!

“I used a pair of them in their various pattern configurations and they delivered exactly what I was looking for: rich lows, tight mids and clear highs. They are now my first choice for any piano recordings that I make!

“I also used them to capture room ambience, especially on drums, and they were great at this too. I’d happily recommend them to anyone.”

“I was simply amazed at the results!”
