

MOUNTING INSTRUCTIONS

VOCAL BOOTH

Two people are needed for assembling the Vocal Booth. If you are less than 180 cm tall, we recommend having a ladder on hand for installation.

UNBOXING

Open the 3 packages carefully! Inserting sharp objects into the packages can damage the Vocal Booth. Avoid using long, sharp tools for opening the packages!

REMOVE PRODUCTS FROM PACKAGING

Carefully remove the products from the packages. Packages 1 and 2 contain the various elements and connectors for the frame, as well as the wing bolts. Package 3 contains the outer walls, curtain, acrylic panel and LED light. Sort all elements in groups as described in the instructions prior to beginning the installation.

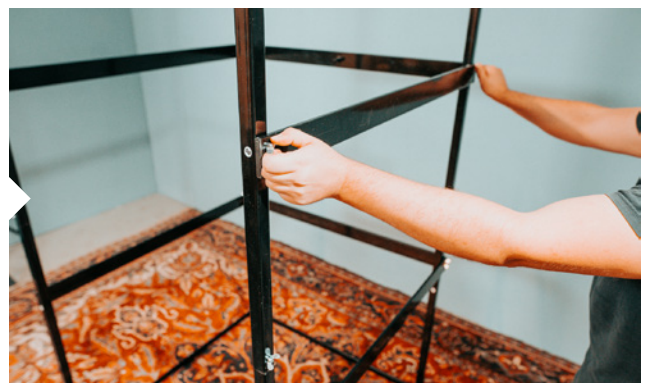

FRAME ASSEMBLY: STEP 1

Follow the instructions and begin by assembling the base and the first (bottom) section of the Vocal Booth by connecting the frame elements using wing bolts, as described in the instructions.

FRAME ASSEMBLY: STEP 2

Continue to follow the instructions and assemble the second section of the Vocal Booth by connecting the frame elements using wing bolts, as described in the instructions.

FRAME ASSEMBLY: STEP 3

Continue to follow the instructions and assemble the third section of the Vocal Booth by connecting the frame elements using wing bolts, as described in the instructions.

INSTALL THE FOAM ELEMENTS AND ACRYLIC PANEL

Attach the foam elements to the frame by pressing the magnets onto the horizontal beams. Remove the protective film from the acrylic panel and attach it to the panel using the magnets, as described in the instructions.

INSTALL THE LED LIGHT

Remove the LED light from the package, insert batteries and attach it to the center horizontal beam of the Vocal Booth using the magnets.

INSTALL THE CURTAIN

Install the curtain by removing it from the package and pulling it onto element P2, before attaching the front horizontal beam (P2) using wing bolts. That's it!

TIP:

Make sure to get help from another person for assembly of the vocal booth. It is also recommended to have a small step ladder on hand.
