

# MOUNTING INSTRUCTIONS

## MOBILE WALL

### UNBOXING

Open the package carefully! Inserting sharp objects into the package can damage the mobile wall. Avoid using long, sharp tools for opening the package!

### REMOVE PRODUCTS FROM PACKAGING

Carefully remove the products from the package. Place the foam elements (3), base plate (1), pole sections (3) and threaded couplings (3) next to each other on the floor.

### ASSEMBLE THE BASE AND POLE

Connect the pole elements using the threaded couplings and attach them to the base plate.

### MOUNT THE ABSORBERS

The absorber elements (1,2,3) have an opening in the back for sliding the elements onto the pole. Add the elements to the stand one at a time.

That's it!

*Depending on the application, you can modify the height of the mobile wall by using the desired number of elements.*

This product is intended to be used to optimise the room acoustics. Any other use or use under other operating conditions is considered to be improper and may result in personal injury or property damage. No liability will be assumed for damages resulting from improper use.

Ensure that plastic bags, packaging, etc. are disposed of properly and are not within reach of babies and young children. Choking hazard!

For the transport and protective packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling. Ensure that plastic bags, packaging, etc. are properly disposed of. Do not just dispose of these materials with your normal household waste, but make sure that they are collected for recycling. Please follow the notes and markings on the packaging.
