AMPLIFi FX100

CREATIVITY MEETS AMAZING TONE.

UNPRECEDENTED WIRELESS CONTROL

Amazing tone. At your fingertips.

The groundbreaking AMPLIFi Remote iOS app makes it fun to dial in great tones from your iPhone, iPad or iPod touch*. Forget about trying to navigate through tiny screens and complex menus—AMPLIFi Remote lets you dial up jaw-dropping tone with ease. Plus, you can choose from over 200 world-class amps and effects to intuitively craft signal chains. With AMPLIFi Remote, you'll experience unparalleled control over your tone.

A NEW WAY TO JAM

Get ready to rock.

AMPLIFi FX100 takes jamming to a whole new level. Play along with tracks in your music library via Bluetooth® streaming audio. Create, share, download and rate tones with a cloud-based community of guitarists. Revolutionary tone matching automatically delivers tones that match your music library, so you can get the legendary tones of your favorite guitarists— instantly. AMPLIFi is the best way to jam along with the music you love.

VERSATILITY MEETS INNOVATION

All the I/O you need.

AMPLIFi FX100 is the perfect centerpiece for your guitar setup, featuring all the inputs and outputs you need. Connect to your amp, external speakers or plug in headphones and jam silently. AMPLIFi FX100 can even play music tracks from your iOS device through your home stereo—while sending your guitar tone to your amp. Whether you're jamming, performing or listening, AMPLIFi FX100 gives you complete versatility.
