

VARYTEC

Mirror Ball

Quick Start Guide

This quick start guide contains important information on the safe operation of the product. Read and follow the safety advices and instructions given. Retain the quick start guide for future reference. If you pass the product on to others please include this quick start guide.

Safety instructions

Intended use

This unit is used in conjunction with suitable lighting devices to create decorative lighting effects in indoor areas. Any other use or use under other operating conditions is considered to be improper and may result in personal injury or property damage. No liability will be assumed for damages resulting from improper use.

Danger for children

Ensure that plastic bags, packaging, etc. are disposed of properly and are not within reach of babies and young children. Choking hazard! Ensure that children do not detach any small parts from the product. They could swallow the pieces and choke!

Where to use the product

Never use the product

- in conditions of extreme temperature or humidity
- in extremely dusty or dirty areas
- at locations where the unit can become wet

General handling

- To prevent damage, never use force when handling the product.
- Never immerse the product in water. Just wipe it with a clean dry cloth. Do not use liquid cleaners such as benzene, thinners or flammable cleaning agents.

Risk of injury caused by falling objects

Make sure that the installation complies with the standards and rules that apply in your country. Always secure the device with a secondary safety attachment, such as a safety cable or a safety chain.

Risk of epileptic shock

Strobe lighting can trigger seizures in photosensitive epilepsy. Sensitive persons should avoid looking at strobe lights.

Perform safety test!

The fixture for hanging the mirror ball must be capable of bearing the 10-fold weight of the mirror ball for one hour without showing any sustaining deleterious deformations.

During building, changing and dismantling the stage, any unnecessary stay in the movement areas, on lighting trusses, below elevated workplaces and other hazardous areas is prohibited.

The contractor must ensure that all safety-related technical equipment and machinery is inspected **by experts before the first commissioning** and any re-commissioning after major changes.

The contractor must ensure that all safety-related technical equipment and machinery is inspected by an expert at least every four years in the scale of the acceptance review.

The contractor must ensure that all safety-related technical equipment and machinery is inspected by a qualified person at least once a year.

The contractor must ensure that all rigging gear is inspected by a qualified person before each using. The inspection must include a visual inspection and load tests in motion.

Article description

Varytec Mirror ball 100 cm

- Varytec mirror ball 100 cm with safety catch
- Safety features:
 - ▶ Mirror ball with extremely rigid plastic core with low dead weight.
 - ▶ High mechanical tensile strength due to continuous axle with self-locking nut.
 - ▶ Additional safety catch to meet the required fall protection.
- Mirror balls meet safety standard EN 292 and accident prevention regulation BGV C1 (formerly VBG70). Quality management for the inspection of every production batch.
- Weight: 31 kg
- Delivery without motor and chains

Varytec Mirror ball 75 cm

- Varytec mirror ball 75 cm with safety catch
- Safety features:
 - ▶ Mirror ball with extremely rigid plastic core with low dead weight.
 - ▶ High mechanical tensile strength due to continuous axle with self-locking nut.
 - ▶ Additional safety catch to meet the required fall protection.
- Mirror balls meet safety standard EN 292 and accident prevention regulation BGV C1 (formerly VBG70). Quality management for the inspection of every production batch.
- Weight: 16 kg
- Delivery without motor and chains

- ① Mirror ball motor
- ② Main chain
- ③ Safety chain
- ④ Mounting eye
- ⑤ Safety catch
- ⑥ Mirror ball

For the transport and protective packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling. Ensure that plastic bags, packaging, etc. are properly disposed of. Do not just dispose of these materials with your normal household waste, but make sure that they are collected for recycling. Please follow the notes and markings on the packaging.
