

WARRANTY

This product is warranted against defects in materials or workmanship for one (1) year from date of original purchase. It does not cover damages or wear resulting from accident, misuse, abuse, or unauthorized adjustment and/or repair. Should this product require service (or replacement at our option) while under warranty, please contact info@redpandalab.com.

SPECS

Size: 4.4" x 2.6" x 1.5"
Input impedance: 1 M Ω
Output impedance: 1 k Ω
Frequency response (+/- 3 dB): 20 Hz - 40 kHz
Signal-to-noise ratio: 90 dB
Power: 9-18 VDC, center negative
Current: 60 mA

QUICKSTART
BITMIXER

 **Red Panda**[®]

The Bit Mixer is a small, high-quality mixer designed for pedalboards. It features ultra-low distortion, low noise op amps. High-impedance inputs are designed for guitar, but work with line-level signals as well. Each input has a volume knob that goes from off to unity gain.

The Bit Mixer is always on when power is connected. An internal LED is visible below the power jack.
