

## Quick Start Guide

This quick start guide contains important information on the safe operation of the device. Read and follow the safety advice and instructions given. Retain the manual for future reference. If you pass the device on to others please include this manual.

## Safety instructions

### Intended use

This device is used for mixing and amplifications of line level audio signals. Any other use or use under other operating conditions is considered to be improper and may result in personal injury or property damage. No liability will be assumed for damages resulting from improper use.

### Danger for children

Ensure that plastic bags, packaging, etc. are disposed of properly and are not within reach of babies and young children. Choking hazard! Ensure that children do not detach any small parts (e.g. knobs or the like) from the unit. They could swallow the pieces and choke! Never let unattended children use electrical devices.

### Where to use the product

Never use the product

- in direct sunlight
- in conditions of extreme temperature or humidity
- in extremely dusty or dirty areas
- at locations where the unit can become wet
- near magnetic fields

### Electromagnetic compatibility with other electrical equipment

Using the device near radios or TV sets may cause interference. Then increase the distance between the devices.

### General handling

- To prevent damage, never use force when operating the switches and controls.
- Never immerse the appliance in water. Just wipe it with a clean dry cloth. Do not use liquid cleaners such as benzene, thinners or flammable cleaning agents.

### Keep foreign substances from the unit!

Keep the device away from containers with liquids. Should any liquid get into the unit, this could lead to its destruction or fire. Be sure not to let any metal objects into the unit.

### Possible hearing damage

With earphones connected, the device can produce volume levels that may cause temporary or permanent hearing impairment. Do not operate the device permanently at high volume. Decrease the volume level immediately if you experience ringing in your ears or hearing impairment.

## Features

- Portable 2-channel mixer
- 1 × volume control per channel

- 1 × line input mono, 1 × line input stereo
- Robust metal housing

## Operating elements

1. CH1: 1/4" phone input for channel 1 to connect a mono line level signal source.
2. CH2: RCA input for channel 2 to connect a stereo line level signal source.
3. OUTPUT: RCA output to connect a stereo power amp or powered speakers.
4. Ground: Connect this ground contact to the ground contact of connected equipment to eliminate hum interference, if necessary.
5. 12 V: Connection for the supplied power adaptor.
6. PHONE: 1/4" phone output to connect headphones.
7. POWER: This LED lights up when the device is powered.
8. CH1 LEVEL: Volume control for the level in channel 1.
9. CH2 LEVEL: Volume control for the level in channel 2.

## Technical specifications

|                        |                |
|------------------------|----------------|
| Transmission range:    | 20 Hz – 20 kHz |
| Distortion:            | < 0,01 %       |
| Input level channel 1: | 33 dB          |
| Input level channel 2: | 13 dB          |

|                    |  |
|--------------------|--|
| Input impedance:   | 10 kΩ  |
| Output impedance:  | 100 Ω  |
| Power supply:      | external power adaptor, 100 - 240 V ~ 50/60 Hz |
| Operating voltage: | 12 V =, 500 mA, center negative                |

For the transport and protective packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling. Ensure that plastic bags, packaging, etc. are properly disposed of. Do not just dispose of these materials with your normal household waste, but make sure that they are collected for recycling. Please follow the notes and markings on the packaging.

This product is subject to the European Waste Electrical and Electronic Equipment Directive (WEEE) in its currently valid version. Do not dispose of your old device with your normal household waste. Dispose of this product through an approved waste disposal firm or through your local waste facility. Comply with the rules and regulations that apply in your country. If in doubt, consult your local waste disposal facility.
