

# INSTRUCTIONS FOR USE

## DIFFUSOR MANHATTAN

These instructions are for the following products: Manhattan EPS.

### FEATURES

- ✓ Material: hardened EPS foam
- ✓ For optimising the room reflections and acoustic room properties
- ✓ Suitable for recording studios, radio stations, home recording and hifi rooms
- ✓ Effective frequency: approx. 900 - 3250 Hz
- ✓ Can be painted or lacquered with water-based paints (use only solvent-free paints!)
- ✓ Easy assembly and disassembly
- ✓ Dimensions (W × H × D): 600 mm × 150 mm × 600 mm
- ✓ 13 single elements per kit
- ✓ Colour: white
- ✓ Scope of delivery: 2 sets of kits incl. mounting instructions

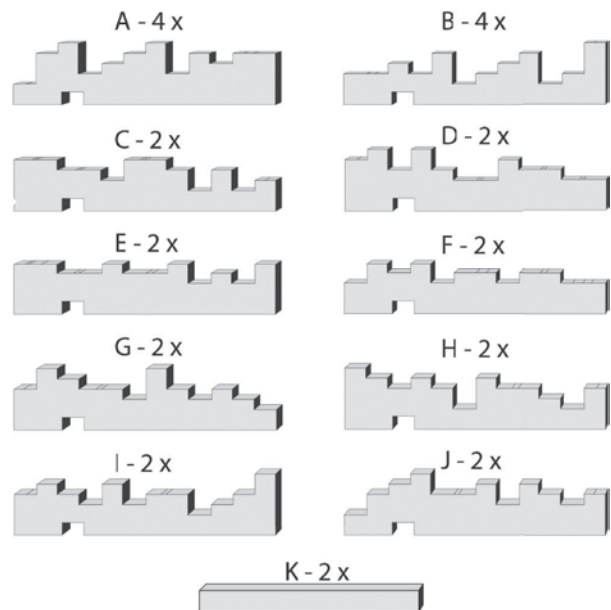

### MOUNTING

For assembly, place the two brackets (element K) next to each other and add the various elements to both at the same time, in the following order:

**A - G - I - C - J - B - D - H - E - F - A - B**

Then, apply light pressure to each element to put them in place. Take care while adding the elements to element K and avoid using excessive force.

Then mount the diffuser on the wall using a water-based glue (i.e. our t.akustik glue).

This product is intended to be used to optimise the room acoustics. Any other use or use under other operating conditions is considered to be improper and may result in personal injury or property damage. No liability will be assumed for damages resulting from improper use.

Ensure that plastic bags, packaging, etc. are disposed of properly and are not within reach of babies and young children. Choking hazard!

When opening the glue cartridge using a knife or a cutter, pay attention not to injure your fingers/hands. Risk of cutting!

For the transport and protective packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling. Ensure that plastic bags, packaging, etc. are properly disposed of. Do not just dispose of these materials with your normal household waste, but make sure that they are collected for recycling. Please follow the notes and markings on the packaging.
