Was ist iLok?

iLok ist ein Kopierschutzsystem für Software.

Durch iLok geschützte Software lässt sich nur ausführen, wenn auf dem verwendeten Rechner eine entsprechend autorisierte Lizenz vorliegt.

Je nach Herstellervorgaben muss die Lizenz entweder auf einem verschlüsselten USB-Stick (pace iLok) (<u>https://www.thomann.de/de/pace_ilok_3.htm</u>) gespeichert sein oder sie kann auch wahlweise auf der Festplatte hinterlegt werden. In beiden Fällen wird ein iLok-Kundenkonto und das Programm iLok License Manager benötigt.

iLok-Kundenkonto

https://www.ilok.com/#!registration

iLok License Manager

https://www.ilok.com/#!license-manager

Beides ist kostenlos erhältlich

Ob der iLok-USB-Stick benötigt wird oder der iLok License Manager ausreicht, ist bei Thomann auf der jeweiligen Produktseite beschrieben.

Spezifikationen

 unterstützte Formate: VST2 / VST3 / AU / AAXnative
 Systemvoraussetzungen: ab Win7, ab Mac OSX 10.8, Internetverbindung, Pace iLok (Art <u>401447</u>, nicht im Lieferumfang enthalten)

Internetverbindung

✓ iLok License Manager

Step 01

Ein iLok-Konto einrichten

1. Füllen Sie im Registrierungsformular (<u>https://www.ilok.com/#!registration</u>) alle rot umrandeten Felder aus und wählen Sie dabei einen Benutzernamen (z.B. Ihre Email-Adresse) und ein Passwort. Notieren Sie sich vorsichtshalber diese Daten.

2. Sie erhalten kurz darauf eine E-Mail zur Aktivierung des iLok-Kontos. Öffnen Sie diese und klicken Sie auf den Bestätigungslink.

Match the email address for confirmation
Vour password must be between 8 and 33 characters in length 7. Imust contain of lenst on wappenson letting at least one lowerscare litter and of least one number to the cannot begins or end with a space. You may include symbols.
~

Step 02

Der iLok Licence Manager

Laden Sie die Installationsdatei (<u>https://www.</u> <u>ilok.com/#!license-manager</u>) für den iLok License Manager herunter und starten Sie mit einem Doppelklick die Installation.

Starten Sie anschließend den iLok License Manager und melden Sie sich mit Ihrer User-ID und Ihrem Passwort an.

Im iLok License Manager können Sie neue Aktivierungs-Codes direkt einlösen, einen neuen iLok-USB-Stick auf Ihr Konto übertragen und all Ihre Lizenzen verwalten.

Step 03

Eine neue iLok-Lizenz einpflegen

Eine iLok-Lizenz kann man auf zwei Arten erhalten:

1. Der Hersteller stellt einen Freischalt-Code zur Verfügung, welchen man im iLok License Manager oben rechts eingeben kann. Anschließend befindet sich die neue Lizenz in der Liste unter Ihrer User-ID.

2. Sie müssen ein Kundenkonto auf der Seite des Herstellers erstellen und geben dort auch Ihre User-ID an. Ihre Lizenz wird dann an iLok weitergeleitet. Deswegen ist es wichtig, bereits vorher über ein iLok-Konto zu verfügen und seinen Namen korrekt anzugeben.

Auch hier finden Sie anschließend Ihre neue Lizenz unter Ihrer User-ID mit aufgelistet.

Step 04

iLok-Lizenzen speichern und aktivieren

Jeder Hersteller kann vorgeben, wo die iLok-Lizenz zu seiner Software gespeichert werden kann. Es gibt drei Möglichkeiten:

1.) Der pace iLok USB-Stick

2.) Die Festplatte Ihres Computers

3.) Die iLok-Cloud (Rechner muss online sein)

Mit einem Doppelklick auf eine neue Lizenz können Sie diese einer der möglichen Speichermethoden zuweisen und somit auch aktiveren. Wie viele Aktivierungen mit einer Lizenz möglich sind und wie viel davon noch aktuell verwendbar sind, ist ebenfalls in der Liste zu sehen.

Sie können nun mit Ihrer Software arbeiten.

Hilfe

Sollten Sie Probleme mit der Gültigkeit eines von uns erhaltenen Freischalt-Code haben, wenden Sie sich bitte an unseren Kundenservice unter:

> **Telefon:** +49 (0)9546-9223-68

Per Email: kundenservice@thomann.de

iLok

What is iLok?

iLok is a software copy protection system.

iLok-protected software can only be run if the computer has been assigned an appropriately authorised licence.

Depending on the manufacturer's specifications, the licence must either be saved on an encrypted USB flash drive (pace iLok) (<u>https://www.thomann.de/</u><u>de/pace_ilok_3.htm</u>) or it can be saved to the hard drive.

In both cases, you'll need an iLok License Manager.

iLok customer account

https://www.ilok.com/#!registration

iLok License Manager

https://www.ilok.com/#!license-manager

Both are available free of charge

You'll find information on whether you'll need the iLok USB flash drive or whether the iLok License Manager is sufficient on the relevant product page in the Thomann web store.

Spezifikationen

 unterstützte Formate: VST2 / VST3 / AU / AAXnative
 Systemvoraussetzungen: ab Win7, ab Mac OSX 10.8, Internetverbindung, Pace iLok (Art <u>401447</u>, nicht im Lieferumfang enthalten)

Systemvoraussetzungen:

ab Win7
 ab Mac OSX 10.7
 Internetverbindung
 iLok License Manager

Step 01

Setting up an iLok account

1. Fill in the fields outlined in red in the registration form (<u>https://www.ilok.com/#!registration</u>), choosing a user name (e.g. your e-mail address) and a password. Write those down just to be safe.

2. You'll receive an e-mail to activate your iLok account shortly thereafter. Open the e-mail and click on the confirmation link

(Vew C
(have one
The User ID you choose will be your account identifier
and cannot be changed. In a studio setting, remember that while you may leave, the User ID you make for your company stays forever.
Optional
Accounts require confirmation from a votid email address
Match the email address for confirmation
Your password must be between 8 and 32 characters in length. It must contain at least one uppercase letter, at least one lowercase letter, and at least one number, but
cannot begin or end with a space. You may include symbols.
~

Step 02

iLok License Manager

Download the installation file (<u>https://www.ilok.</u> <u>com/#!license-manager</u>) for the iLok License Manager and launch installation with a double click

Please then launch the iLok License Manager and log in with your iLok user ID and password.

You can directly redeem your new licenses, assign a new iLok USB flash drive to your account and manage all your licences in the iLok License Manager.

Step 03

Adding a new iLok licence

There are two ways of adding a new iLok licence:

1.) The manufacturer provides an activation code which you can enter at top right in the iLok License Manager

This new licence will then be added to the list in your user ID.

2.) You need to set up a customer account on the manufacturer's website using your user ID. Your licence will then be forwarded to iLok. This is why it is vital that you have an iLok account and enter the details correctly.

Here, too, you'll find your new licence listed under your user ID.

Step 04

Saving and activating iLok licences

Every manufacturer can specify where the licenses for their software are saved. There are three options:

1. The pace iLok USB flash drive

2. You computer's hard drive

3. The iLok cloud (computer must be online)

By double clicking on a new licence, you can assign it to one of the storing methods and thus activate it.

Your list will also show how many activations you can perform with a single licence, and how many you still have left.

You can now work with your software.

Help:

Should you encounter any problems with the validity of an activation code purchased from us, please contact our customer service:
