NOTICE!	This combination of symbol and signal word indicates a possible dangerous situation that can result in material and environmental damage if it is not avoided.

Warning signs	Type of danger
	Warning – danger zone.

2 Safety instructions

Intended use

This light stand is intended to be used for the stable mounting and height-adjustable positioning of spotlights. Use the device only as described in this user manual. Any other use or use under other operating conditions is considered to be improper and may result in personal injury or property damage. No liability will be assumed for damages resulting from improper use.

This device may be used only by persons with sufficient physical, sensorial, and intellectual abilities and having corresponding knowledge and experience. Other persons may use this device only if they are supervised or instructed by a person who is responsible for their safety.

Safety

DANGER!

Danger for children

Ensure that plastic bags, packaging, etc. are properly disposed of and are not in the reach of babies and young children. Choking hazard!

Ensure that children do not detach any small parts (e.g. knobs or the like) from the product. They could swallow the pieces and choke!

Never let children play unattended with the product.

CAUTION!

Danger of tipping when transported under load

If the stand is moved without having removed the installed device, the stand may tip over and cause injuries and property damage.

Remove the installed device before transporting the stand.

CAUTION!

Danger of tipping on unsuitable surfaces

When the speaker stand is installed on soft or uneven ground, the stand may tip over and cause injuries and property damage.

Install the stand only on even and solid surfaces.

CAUTION!

Danger of tipping due to overload

In case of overload, the stand may tip over and cause injuries and property damage.

Never exceed the maximum load capacity specified for the stand.

3 Features

- Complete lighting stand set consisting of
 - two truss beams
 - two lighting tripods
 - two truss holder
- suitable for mounting of up to eight spot lights or effects
- Extension tubes secured by safety bolts
- Truss tube diameter: 18 mm
- Tripod tube diameter: 28 mm
- maximum weight-bearing capacity: 60 kg
- maximum height: 3.10 m
- Width: 3.00 m

4 Installation

Unpack and check carefully there is no transportation damage before using the product. Keep the equipment packaging. To fully protect the product against vibration, dust and moisture during transportation or storage use the original packaging or your own packaging material suitable for transport or storage, respectively.

CAUTION!

Danger of tipping when transported under load

If the stand is moved without having removed the installed device, the stand may tip over and cause injuries and property damage.

Remove the installed device before transporting the stand.

CAUTION!

Danger of tipping on unsuitable surfaces

When the speaker stand is installed on soft or uneven ground, the stand may tip over and cause injuries and property damage.

Install the stand only on even and solid surfaces.

CAUTION!

Danger of tipping due to overload

In case of overload, the stand may tip over and cause injuries and property damage.

Never exceed the maximum load capacity specified for the stand.

NOTICE!

Possible staining

The plasticiser contained in the rubber feet of this product may possibly react with the coating of your parquet, linoleum, laminate or PVC floor and after some time cause permanent dark stains.

In case of doubt, do not put the rubber feet directly on the floor, but use felt-pad floor protectors or a carpet.

Mounting

LB-3

1. ➤ Unfold the feet of the tripods until the cross braces are in a horizontal position.
2. ➤ Fix this position with the safety screw on the slider to which the three feet are attached.

3. ➤ Screw the two truss parts with the three supplied hex screws and nuts.

- 4.** ▶ Insert the two truss holders into the extension tubes of the two tripods and fix the adapter with the mounting screw.

- 5.** ▶ Attach the mounted truss beam and fix it in the desired position with the wing nuts.

- 6.** ▶ Mount up to eight effects or spot lights to the truss beam. Arrange the devices as balanced as possible. Observe the instructions of the respective manufacturers. The maximum load capacity of 60 kg in total must not be exceeded.

- 7.** ➤ Loosen the two screws on the extension tubes. Pull out the extension tubes of the two tripods to the desired height and fix both with the help of the locking screw on the tripod.
- 8.** ➤ To dismantle the set proceed in the reverse order.

5 Technical specifications

Tripod tube diameter	Ø 28 mm	
Mounting slots	8	
Maximum capacity with balanced distribution	60 kg	
Colour	Item no. 306354	Black
	Item no. 369941	Silver
Total weight	21 kg	

6 Protecting the environment

Disposal of the packaging material

For the transport and protective packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling.

Ensure that plastic bags, packaging, etc. are properly disposed of.

Do not just dispose of these materials with your normal household waste, but make sure that they are collected for recycling. Please follow the notes and markings on the packaging.
