

Manual

Edge Mic™ String

Congratulations and thank you for purchasing a FINHOL product. FINHOL produces at highest standards. All Finhol products are strictly quality inspected before delivery.

The Edge™ Mic String is the first condenser microphone, which can be fixed on the edge of the sound hole of stringed instruments such as, Acoustic-Guitars, Classical-Guitars, Acoustic-Bass or Ukulele, simply by postponing the microphone over the edge.

The microphone requires phantom power 9-48 volts. The electronic, which is necessary to produce a balanced signal, is integrated into the XLR connector.

Technical Data

- Weight: 15 gr
- Material: Nylon & steel spring
- Sound conversion: condenser capsule
- Characteristic: cardioid
- Signal: balanced
- Impedance: 680 ohm
- Output: 3 meter cable & XLR connector
- Phantom power: 9 - 48 V
- Frequency response: 50 Hz - 20 kHz
- Mounting: postpone over the edge
- Maximum slot width: 4 mm
- Made in Germany, CE, ROHS
