

The GigA Pro BC2 Battery Charger is a battery charger with two charging slots. Each charging slot charges

- Handheld microphones
- Bodypack transmitters
- Lithium-ion batteries ICR-18500 in different combinations.

Features

- Charging indication for both loading slots
- Storage option for two lithium-ion batteries ICR-18500
- Multiple GigA Pro BC2 Battery Chargers may be mechanically connected

Technical specifications

- Suitable for:
Lithium-ion batteries ICR-18500, 3.7 V
- Charging method:
Electronic control
- Charge current approx. 500 mA
- Operating voltage supply
10 – 15 V $\underline{\quad}$ via the supplied power adapter
- Power consumption : appr. 600 mA when two batteries are charged at the same time
- Dimensions (W × H × D):
92 mm × 78 mm × 158 mm
- Weight: approx. 313 g

Ensure that plastic bags, packaging, etc. are properly disposed of and are not in the reach of babies and young children. Choking hazard!

For the packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling. Ensure that plastic bags, packaging, etc. are properly disposed of. Do not just dispose of these materials with your normal household waste, but make sure that they are collected for recycling. Please follow the notes and markings on the packaging.

This product is subject to the European Waste Electrical and Electronic Equipment Directive (WEEE). Do not dispose with your normal household waste. Dispose of this device through an approved waste disposal firm or through your local waste facility. When discarding the device, comply with the rules and regulations that apply in your country. If in doubt, consult your local waste disposal facility.
