

# HD500 Bass Combo

**Hartke**  
SERIOUS TONE™

## POSITIONING

Hartke's popular HD Series now features the high-powered, lightweight HD500 Bass Combo. Packing two 10" Hartke patented HyDrive speakers with rare earth neodymium magnets and a 500-watt Class D amplifier into a sleek enclosure weighing only 35 pounds, the HD500 provides exceptional bass tone to any rehearsal, stage or studio.

## FEATURES

### The HyDrive Design

HyDrive speakers feature carefully crafted paper/aluminum hybrid cone drivers. The hybrid makeup delivers an exceptional blend of warmth and attack that can't be attained by traditional all-paper bass speakers. The use of rare earth neodymium magnets also helps to maintain lightweight portability without sacrificing any of the legendary Hartke attack.

### Power and Portability

Beyond the impeccable tone of the HyDrive speakers, the HD500 offers tremendous power in a highly-portable design. Its lightweight Class D amplifier produces an earth shaking 500 watts of power capable of filling any rehearsal space, recording studio or performance venue. And weighing just 35 pounds in all, the HD500 can be easily transported via a molded strap carry handle anywhere that needs more bass.

### Shape Your Tone

A result of Hartke's many years of involvement in the bass community, the HD500 includes a selectable Shape control. This feature activates a specialized preset EQ curve designed to improve your tone through selective boosts and attenuations across the frequency range. The adjacent Shape variable filter, as well as a 3-band EQ, provides further customization.

## APPLICATIONS

- Live performance
- Studio recording
- Practice/rehearsal

## SPECIFICATIONS

Amplifier .....	Class D, top-mounted control panel
Rated Output Power.....	500W Peak
Rated Input Level.....	77.46mv rms (@1kHz)
Speakers.....	Two 10" paper/aluminum cone drivers
Magnets.....	Neodymium
Total Harmonic Distortion.....	0.54% (@1dB below rated output)
Signal To Noise Ratio.....	1W/49.3dBu (1Wrms @1kHz)
Equalizer Center Frequency.....	Bass: 70Hz, Mid: 700Hz, Treble: 5kHz
Controls.....	Volume, Shape, Bass, Mid, Treble
Shape Control.....	100Hz-900Hz
Input.....	1/4" instrument, 1/8" stereo Aux
Outputs.....	1/4" headphone, XLR direct out
Cabinet Design.....	5/8" plywood, ported bass reflex
Grille.....	Perforated metal
Handle.....	Molded strap (steel reinforced)
Product Dimensions.....	20.5" x 19.5" x 12" (521mm x 495mm x 305mm)
Product Weight.....	35.3lb (16kg)
Gift Box Dimensions.....	TBD
Gift Box Weight.....	TBD
Master Carton Quantity.....	1
UPC (US only).....	809164020165
SKU (US only).....	HMHD500
