

Saramonic SR-HM7 is a unidirectional dynamic microphone specifically designed for interview and presentation uses. The product structure is easy-to-handle, and minimizes wind and handling noise, making it ideal for ENG & interview applications.

Specifications

Type	Dynamic
Polar pattern	Unidirectional
Pick-up pattern	Cardioid
Frequency Response	100Hz ~ 10KHz
Sensitivity	0°-52.4dB±3dB(0dB=1V/u _{bar} at 1KHz)
Output Impedance	500Ω±30% at 1KHz
Connector	3-pin XLR connector
Dimensions	Ø 51 mm, length 258 mm/approx. 290g

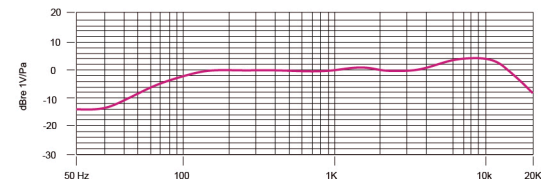

Features

- Optimised frequency response
- Extreme low handling and wind noise
- Excellent sound quality
- Cardioid dynamic capsule
- Rugged all-metal body

Packing List

- SR-HM7*1
- User manual*1
- Warranty card*1
