5.14   Firmware

The current firmware list is available for download on the product page of our home-page *www.milleniumdrums.com*.

1. ▷ Save the downloaded firmware to a USB flash drive (USB stick). The percussion pad automatically detects the firmware update during installation.

2. ▷ Connect the USB flash drive to the percussion pad via the *[USB-A]* interface.

3. ▷ Press *[SETUP]* to enter the settings menu.

   ⇨ The display shows the respective submenus.

4. ▷ Press ▲ or ▼ and select menu item *'UPDATE'*.

   ⇨ The display shows *'Press OK to firmware update'*.

5. ▷ Press *[OK]* to update the firmware.

6. ▷ The device restarts and the display shows *'welcome'*.

   ⇨ The device is operational again.
