Getting started	5
Applications	6
Specifications	8
Warranty Statement	9

Thank you for choosing the SYNTH BUDDY. What started as a simple idea to organize all the keyboards and synths on Heritage Audio Studio, has become a whole new product.

Have you ever had a great idea that suddenly popped into your head disappear by the time you are all setup and ready to record? Well, the SYNTH BUDDY is here to help you organize all your line level instruments and drastically improve your studio's workflow in an elegant manner.

We've even designed the SYNTH BUDDY to be fully reversible so it can also be a 1 to 10 distributor so the possibilities are endless. Let creativity guide you with the SYNTH BUDDY.

Have you ever dreamed about an inexpensive solution to help you have all your synths, drum machines, samplers and other line level instruments connected and available with the twist of a knob? The SYNTH BUDDY is finally here for you.

Everything connected

Introducing the very first desktop 10 to 1 reversible and fully passive stereo switch, the SYNTH BUDDY is one of the first Heritage Audio's studio essential tools to help you increase your creativity.

Seamlessly connect up to 10 stereo (or 20 mono) line level sources and toggle between them with the turn of a knob. As simple as that.

THE SYNTH BUDDY'S all passive design ensures crystal clear line level signals with no added coloration, straight from your mind to the song with no power source required.

Let creativity guide you

When creativity hits there is no time for plugging cables and switching gear... and that is precisely the idea behind the SYNTH BUDDY. Have everything connected and available at the twist of a knob.

You can even use the SYNTH BUDDY backwards turning it into a 1 input 10 output selector so you can easily run one guitar or bass into several amps or effects. The applications are endless!

As simple as one big switch to scroll between up to 10 line level stereo instruments (or 20 mono line level instruments in pairs).

Use TS jacks for your instruments and output.
You can reverse the SYNTH BUDDY and use it as 1 to 10 output selector.

USING THE SYNTH BUDDY AS A 10 to 1 SWITCHER

Connect up to 10 stereo or 20 mono instruments with TS jack cables to the SYNTH BUDDY

USING THE SYNTH BUDDY AS A 1 to 10 DISTRIBUTOR
(Example: Connecting a guitar to several amps)

Guitar to OUTPUT 1

Connect top input jacks to the amps with TS jack cables.

Inputs: 10 x Stereo / 20 x Mono TS Jacks.

Outputs: 1 x Stereo / 2 x Mono TS Jacks.

Inputs and outputs reversible.

Full passive circuit.

Weight: 988 gr.

Dimensions: L: 190mm x D: 105mm x H: 80mm

LIMITED 2 YEAR WARRANTY

The **SYNTH BUDDY** is warranted by Heritage Audio to be free from defects in materials and workmanship for the period of 2 years to the original purchaser. In the event of such defects, the product will be repaired without charge or, at our option, replaced with a new one if delivered to Heritage Audio prepaid, together with a copy of the sales slip or other proof of purchase date. The warranty excludes problems due to normal wear, abuse, shipping damage or failure to use the product in accordance with the specifications.

Heritage Audio shall not be liable for damages based upon inconvenience, loss of use of the product, loss of time, interrupted operation or commercial loss or any other damages, whether incidental, consequential or otherwise.

This warranty is not transferable.

We encourage you to register your new SYNTH BUDDY in our web in order to better manage any warranty related issues at: <https://heritageaudio.com/registration/>
