Assembly Manual

Thank you for choosing a piece of Zaor studio furniture,
which will hopefully make your life easier, more ergonomic and improve the looks of your workspace.
Before you can enjoy the comfort of your new acquisition you need to assemble it.
We have tried to give you as much detail as needed and as little as possible.
Should you run into any difficulty with this assembly you can get in touch with us via
sales@zaorstudiofurniture.com to set up a Skype session or phone call.

Here is a general instruction on how to use the furniture assembly kits:

- 1) Insert and screw in the system bolt(s) into the socket(s) already present on the panel(s)
- 2) Tighten ever so lightly, if using a screwdriver toward the end, do not turn more than 30°!
- 3) Assemble with the connecting panel, aligning the bolts with the round holes in the latter
- 4) Insert the eccentric connector(s) into the round hole(s) and tighten clockwise with a flat screwdriver or a 4mm Allen key (about 90°)
