# SAFETY INSTRUCTIONS

## 1. IMPORTANT SAFETY INSTRUCTIONS

- 1) Read these instructions;
- 2) Keep these instructions;
- 3) Heed all warnings;
- 4) Follow all instructions;
- 5) Do not use this apparatus near water;
- 6) Clean only with a dry cloth;
- 7) Install in accordance with the manufacturer's instructions;
- 8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatuses (including amplifiers) that produce heat;
- 9) Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles, and the point where they exit from the apparatus;
- 10) Only use attachments/accessories specified by the manufacturer;
- 11) Unplug this apparatus during lightning storms or when unused for long periods of time;
- 12) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as when the power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, or when the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped;
- 13) "Warning: to reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture; and objects filled with liquids, such as vases, should not be placed on this apparatus";
- 14) The socket outlet shall be installed near the equipment and shall be easily accessible;
- 15) The power cord must be unplugged prior to servicing

## MORE INFORMATION

For warranty and service information, please contact your local DV Mark distributor (contact information available at [www.dvmark.it](http://www.dvmark.it)). For more technical information, please visit us at [www.dvmark.it](http://www.dvmark.it) and fill out the form on the Contact Us page. We hope you enjoy your amplifier and use it to make great music!

"The Lightning Flash with arrowhead symbol within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product enclosure that may be of sufficient magnitude to constitute a risk of shock to persons."

"The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product."

## 1. PRÉCAUTIONS D'EMPLOI

- 1) Lire ces instructions;
- 2) Conserver ces instructions;
- 3) Suivre tous les conseils d'utilisations;
- 4) Suivre toutes les instructions;
- 5) Ne pas utiliser cet appareil au bord de l'eau;
- 6) Nettoyer uniquement avec un chiffon humide;
- 7) Ne pas bloquer le système de ventilation. Installer conformément aux instructions du fabricant;
- 8) Ne pas installer l'appareil près d'une source de chaleur tel qu'un radiateur, un fourneau, ou bien un autre appareil qui produit de la chaleur;
- 9) Protéger le cordon d'alimentation afin qu'il ne soit pas piétiné ou écrasé tout particulièrement au niveau des fiches, des prises de courant femelles, et des parties qui sortent de l'appareil;
- 10) Utiliser uniquement les accessoires recommandés par le fabricant;
- 11) Ne pas branché l'appareil en cas d'orage accompagné d'éclairs. Le débrancher en cas de non utilisation prolongée;
- 12) S'adresser à un service assistance agréé si l'appareil a subi des dommages, si le cordon d'alimentation ou la fiche a été endommagé, si un liquide a été renversé sur l'appareil ou bien si un object est tombé dans l'appareil, si ce dernier a été exposé à la pluie ou à l'humidité, s'il ne fonctionne pas correctement ou s'il est tombé;
- 13) "Avertissement: pour réduire le risque du feu ou de décharge électrique, n'exposez pas cet appareil à la pluie ou l'humidité et les objets remplis de liquides; tels que des vases, ne devraient pas être placés sur cet appareil";
- 14) La prise de courant doit être installée près de l'appareil et doit être facilement accessible;
- 15) La fiche principale doit être débranchée avant toute opération d'entretien

"The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product."

## A Word from Marco De Virgiliis

Thank you for choosing the **DV Little Jazz / DV 12 Jazz** combo.

Jazz guitarists are well aware that creating a great jazz tone requires not only the right guitar but also the right amplifier.

The **DV Little Jazz / DV 12 Jazz** combos have been designed with a jazz guitar in mind.

Lots of attractive features which make them a new standard for jazz guitarists and everyone in need of a small, ultra-compact, very-portable combo with a clean, warm, powerful sound!

We hope you will enjoy your new guitar amp, and we invite you to contact us any time with your comments and questions, at **info@dvmark.it**.  
Thanks again, and good music!

We hope you will enjoy your new guitar amp, and we invite you to contact us any time with your comments and questions, at **info@dvmark.it**.

Thanks again, and good music!

Marco De Virgiliis

# FRONT PANEL

**1) INPUT** Connect your guitar to this input using a standard 1/4" shielded instrument cable.

**2) MASTER** Start with the Master control OFF (all the way counter-clockwise) and turn it up gradually until you reach your desired volume.

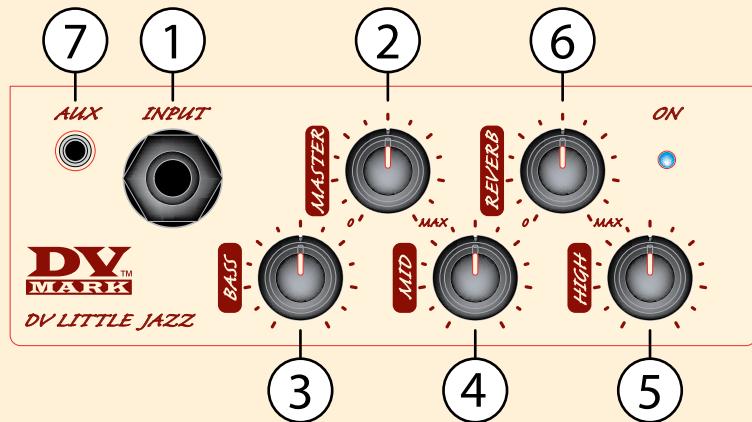

**3) BASS** This knob controls the amount of low frequencies in your sound.

**4) MID** The Middle control regulates the midrange frequencies and it is an important part of your tone shaping.

**5) HIGH** The High knob controls the amount of high frequencies in your sound.

**6) REVERB** Level control for the onboard reverb. This amp features a last generation of digital reverb, it's sweet-sounding, warm and natural.

**7) AUX** Use this input to plug in an iPod, CD or MP3 player using a mini plug 1/8". This signal mixes in evenly with your instrument input..

# REAR PANEL

**8) AC POWER SOCKET** Make sure the unit is grounded; all three terminals of the AC power plug must be connected to avoid any injury to the user or damage to the unit.

DV Mark amps and combos are manufactured to be used in the country where they have been sold, and are factory preset to that country's voltage. So make sure you're sending the correct voltage to your amp before you connect it to AC power.

**9) ON/OFF SWITCH** This switch delivers AC power to the amp,

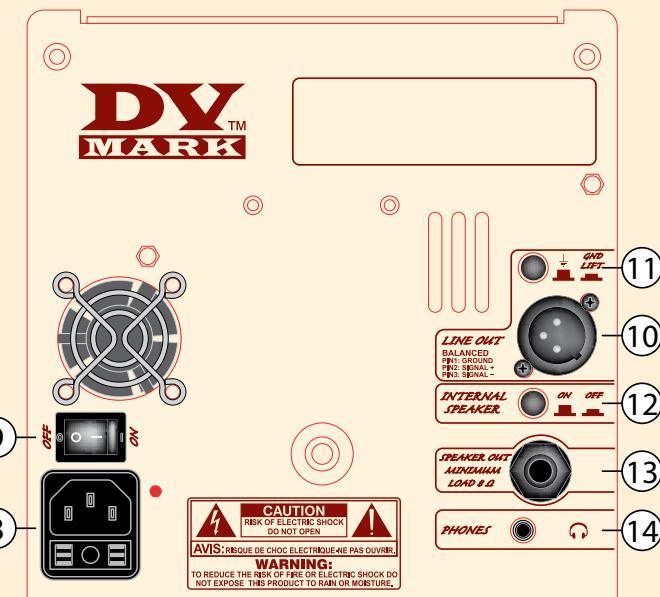

**10) LINE OUT** This balanced XLR output sends a balanced signal to the mixing console or snake in live and studio situations. The Line Out signal is post-EQ and post-reverb.

**11) GROUND LIFT** Occasionally, when you're playing live and using the Line Out (10), the soundman will detect a hum from your amp's signal. This is often due to a ground problem related to your power source; You will likely eliminate this hum simply flipping the Ground Lift switch.

**12) INTERNAL SPEAKER ON/OFF** This switch turns off the speaker when using headphones so you can practice anywhere and anytime you like.

**13) SPEAKER OUT** Use this output to connect an 8 ohm extension cabinet, giving you a louder rig.

**14) PHONES** For quiet practicing plug headphones into this mini plug 1/8" input, turning OFF the internal speaker switch (12).

# TECHNICAL SPECS

**Channels:** One

**Controls:** Gain - Master - Reverb

**EQ Controls:** Low - Mid - High

**Speaker Outputs:** One 1/4" Jack mono out 8 ohm

**Power Output:** 60W @ 4ohm,

45W @ 8ohm

**Other Features:** Onboard reverb

**Dimensions:** 270 x 280 x 270 mm / 10.63" x 11.02" x 10.63" (DV Little Jazz)

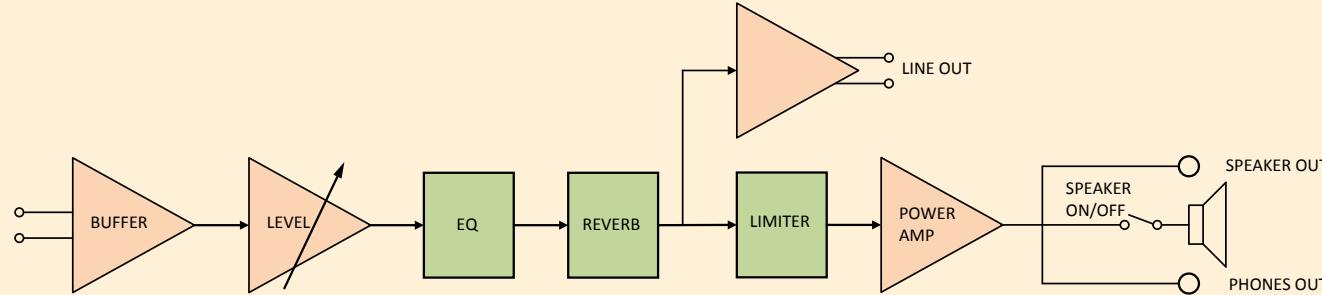

440 x 430 x 306 mm / 17.32" x 16.93" x 12.05" (DV 12 Jazz)

**Weight:**

6,9 kg / 15.21 lbs (DV Little Jazz)

10,2 kg / 22.49vv lbs (DV 12 Jazz)

## BLOCK DIAGRAM

**POWER REQUIREMENT:** 100V; 120V; 230V; 240V - 50/60Hz (Voltage is factory preset according to region of sale).

DV Mark amps/combos are manufactured to be sold and used in the country of purchase, and they are factory preset to at country's voltage. Due to homologation issues, the voltage may not be changed.
