

User manual

This manual contains important information on the safe operation of the device. Read and follow the safety advice and instructions given. Retain the manual for future reference. If you pass the device on to others please include this manual.

Safety instructions

Intended use

This device is used to convert acoustic signals into electrical signals as well as their wireless transmission. Any other use or use under other operating conditions is considered to be improper and may result in personal injury or property damage. No liability will be assumed for damages resulting from improper use.

Danger for children

Ensure that plastic bags, packaging, etc. are disposed of properly and are not within reach of babies and young children. Choking hazard! Ensure that children do not detach any small parts (e.g. knobs or the like) from the unit. They could swallow the pieces and choke! Never let unattended children use electrical devices.

Interference with other electrical equipment

Using the device near radios or TV sets may cause interference. Then increase the distance between the devices.

Where to use the product

Never use the product

- in direct sunlight
- in conditions of extreme temperature or humidity
- in extremely dusty or dirty areas
- at locations where the unit can become wet
- near magnetic fields

General handling

- To prevent damage, never use force when operating the switches and controls.
- Never immerse the appliance in water. Just wipe it with a clean dry cloth. Do not use liquid cleaners such as benzene, thinners or flammable cleaning agents.

Keep foreign substances from the unit!

Keep the device away from containers with liquids. Should any liquid get into the unit, this could lead to its destruction or fire. Be sure not to let any metal objects into the unit.

Features

- Wireless headset with transmitter and volume control
- Compact receiver with 3.5 mm mini jack plug
- Adapter to 6.3 mm jack (with thread) included
- 2.4 GHz technology, worldwide free of registration and charge

- Built-in lithium-ion batteries (3.7 V, 500 mAh, not replaceable)
- Charging via supplied USB adapter
- Battery life up to 6 hours
- Operating range up to 15 m

Operating elements & connections

- 1 Receiver
- 2 Headband
- 3 Transmitter
- 4 Volume controls on transmitter
- 5 Microphone
- 6 3.5 mm jack plug of the receiver
- 7 Charging port receiver
- 8 On / off switch receiver
- 9 Charging port transmitter
- 10 On / Off switch transmitter

Using the device

1. Connect the 3.5 mm jack plug of the receiver to the microphone input of a mixer or other audio device. If necessary, use the supplied 6.3 mm jack adapter.
2. Turn on the receiver by setting its on / off switch to the ON position. The power indicator flashes.
3. Turn on the transmitter by setting its on / off switch to the ON position. The power indicator flashes. Transmitter and receiver now synchronize automatically. After successful synchronization, the power indicator lights up solid.
4. Put on the headset with the headband running behind the head.
5. Speak or sing into the microphone and adjust the volume as desired using the control on the transmitter. Do not move farther than 15 m from the receiver, otherwise the connection will break off.
6. Fully charged batteries allow operation for about 6 hours. When the charge of the built-in batteries decreases, the power indicators turn red. If it drops below 10%, the power indicator goes out. The batteries must then be charged.
7. To charge the built-in batteries, connect the devices to a USB Type-A power source or USB power adapter (e.g., item no. 373709) using the supplied USB adapter.
8. After use, switch off the devices by turning their on / off switches to the OFF position. The operating indications then go out.

Technical specifications

Operating range: max. 15 m
Lithium-ion-battery: 3.7 V, 500 mAh (not replaceable)

Battery life: approx. 6 hours
Weight: 48 g

For the transport and protective packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling. Ensure that plastic bags, packaging, etc. are properly disposed of. Do not just dispose of these materials with your normal household waste, but make sure that they are collected for recycling. Please follow the notes and markings on the packaging.

 Remove lithium batteries before disposing of the device. Protect used lithium batteries against potential short circuits, e.g. by covering the poles with adhesive tape. Lithium batteries must not be thrown away with the normal household waste or

burned, but must be disposed of in accordance with local regulations on the disposal of hazardous waste. Use the existing collection points.

This product is subject to the European Waste Electrical and Electronic Equipment Directive (WEEE) in its currently valid version. Do not dispose of your old device with your normal household waste. Dispose of this product through an approved waste disposal firm or through your local waste facility. Comply with the rules and regulations that apply in your country. If in doubt, consult your local waste disposal facility.
