

Wireless Plug & Play

User manual

This manual contains important information on the safe operation of the device. Read and follow the safety advice and instructions given. Retain the manual for future reference. If you pass the device on to others please include this manual.

Safety instructions

Intended use

This device is used for the wireless transmission of audio signals. Any other use or use under other operating conditions is considered to be improper and may result in personal injury or property damage. No liability will be assumed for damages resulting from improper use.

Danger for children

Ensure that plastic bags, packaging, etc. are disposed of properly and are not within reach of babies and young children. Choking hazard! Ensure that children do not detach any small parts (e.g. knobs or the like) from the unit. They could swallow the pieces and choke! Never let unattended children use electrical devices.

Interference with other electrical equipment

Using the device near radios or TV sets may cause interference. Then increase the distance between the devices.

Where to use the product

Never use the product

- in direct sunlight
- in conditions of extreme temperature or humidity
- in extremely dusty or dirty areas
- at locations where the unit can become wet
- near magnetic fields

General handling

- To prevent damage, never use force when operating the switches and controls.
- Never immerse the appliance in water. Just wipe it with a clean dry cloth. Do not use liquid cleaners such as benzene, thinners or flammable cleaning agents.

Keep foreign substances from the unit!

Keep the device away from containers with liquids. Should any liquid get into the unit, this could lead to its destruction or fire. Be sure not to let any metal objects into the unit.

Features

- XLR plug-on transmitter and receiver
- Radio system in the range from 5.729 GHz to 5.820 GHz
- Transmitter: XLR female, battery 3.7 V / 450 mAh lithium, power >7 dBm, black
- Receiver: XLR male, battery 3.7 V / 360 mAh lithium, colour white; Range about 35 m

- Charging cable USB-A to 2x Micro-USB included
- 4 preset frequencies
- 4 hours of operation, 2 hours of charging
- Optional USB power supply available: 278119

Operating elements & connections

- 1 Micro USB power recharging port
- 2 Transmitter: XLR female connector
Receiver: XLR male connector
- 3 Release button, push to disconnect from microphone (transmitter only)
- 4 Indicator (orange)
- 5 ID channel indicator and power level indicator. The 4 different colours stand for the four available communication channels.
- 6 Power button
- 7 ID button

Using the device

1. Press and hold the On / Off buttons on both devices until they are switched on.
2. If the orange indicator flashes, the devices must first be paired. To do this, press and hold the ID buttons on both devices for 5 – 7 seconds. The two ID channel indicators should then light up in the same colour and the orange indicator should go out. The pairing is now complete and the devices are ready for use.
3. If the pairing did not work, switch the transmitter (black) off with the On / Off button and then on again. Do step 2 again.
4. After the connection has been made, connect the transmitter (black) to the XLR connector of a microphone. Connect the receiver (white) to the input of an amplifier or mixer.
5. If noise interference occurs during the transmission, press the ID button on the transmitter to switch to another communication channel. The receiver then also carries out the same step automatically.

Understanding the indicators

| Indicator | Meaning |
|--|---------------------|
| Charge indicator lights | Charge level > 30 % |
| Charge indicator slowly flashing | Charge level < 30 % |
| Charge indicator quickly flashing | Charge level < 10 % |
| Charge indicator flashes every 5 seconds | Charge level < 5 % |

| Indicator | Meaning |
|---------------------------------|-------------------|
| Pairing indicator flashing | Pairing underway |
| Pairing indicator off | Pairing complete |
| Charge indicator breathes green | Charging underway |
| Charge indicator lights green | Charging complete |

Technical specifications

Delay: 5,6 ms
Weight: 0.06 kg each

Dimensions: W 30.5 × 30.5 × 98 mm each

For the transport and protective packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling. Ensure that plastic bags, packaging, etc. are properly disposed of. Do not just dispose of these materials with your normal household waste, but make sure that they are collected for recycling. Please follow the notes and markings on the packaging.

Remove lithium batteries before disposing of the device. Protect used lithium batteries against potential short circuits, e.g. by covering the poles with adhesive tape. Lithium batteries must not be thrown away with the normal household waste or

burned, but must be disposed of in accordance with local regulations on the disposal of hazardous waste. Use the existing collection points.

This product is subject to the European Waste Electrical and Electronic Equipment Directive (WEEE) in its currently valid version. Do not dispose of your old device with your normal household waste. Dispose of this product through an approved waste disposal firm or through your local waste facility. Comply with the rules and regulations that apply in your country. If in doubt, consult your local waste disposal facility.
