

D10B DYNAMIC INSTRUMENT MICROPHONE

Description

The D10B is a dynamic supercardioid microphone designed for musical instrument live sound and recording applications. The D10B exhibits wide and flat frequency response with its high SPL capacity and is not easy to distort. Built-in hum-bucking circuit effectively reduces the interference from electromagnetic waves and other devices.

The shock mount within the D10B also greatly reduces mechanical vibration and stage noises. All metal construction with a strengthened grille makes the D10B very durable for stage. Besides, all the accessories like mic clip, drum clamp, and pouch are included to fulfill every application. It is a high value product.

Features

- Dedicated design for mid-high range instruments.
- Supercardioid polar pattern, high gain before feedback.
- High SPL capability.
- Hum-bucking coil to reduce interference by power lines and other devices.

D10B Frequency Response (Supercardioid)

Specifications

Type	Dynamic
Polar Pattern	Supercardioid
Frequency Response	50 – 18,000 Hz
Sensitivity	-54 dBV/Pa (2.0 mV)
Output Impedance	200 Ω
Min. Load Impedance	200 Ω
Max. SPL	135 dB
Finish	Titanium Gray
Connector	XLR3M
Dimensions	Ø42.5 × 144 mm (Ø1.67" × 5.67")
Net Weight	220 g (7.8 oz.)

Included

This information sheet contains important information for the safe use of the product. Read and follow the safety and handling instructions given here. Please keep this information sheet for future reference. If you pass on the product described overleaf, please enclose this information sheet.

Safety instructions

Intended use

This device converts acoustic signals in electrical signals. Any other use or use under the conditions excluded here is considered improper and can lead to personal injury or property damage. Neither the manufacturer nor the distributor is liable for damage resulting from improper use.

Choking hazard for children

Make sure that plastic sleeves, packaging, etc. cannot get into the reach of babies and small children. Do not allow children to use electrical devices unsupervised. They could loosen parts of the product, then swallow them and choke on them!

Place of operation

The device must not be used

- ▶ at particularly high temperatures or humidity
- ▶ in particularly dusty or polluted places
- ▶ in places where it can be exposed to moisture

General handling

To prevent damage, never use force when handling the product. Never immerse the product in liquids. Just wipe it with a clean, dry cloth. Never use liquid cleaners such as benzene, thinner, or flammable detergents to clean the product.

Disposal

Old devices

Devices with this label are subject to the current EU directive on waste electrical and electronic equipment (WEEE directive) and may not be disposed of with household waste, but only via a suitable disposal company. Ask your local authority or your specialist dealer about your options for proper disposal.

Packagings

Environmentally friendly materials have been selected for the packaging and are to be recycled. Do not just throw away plastic sleeves, packaging, etc., but recycle them. If necessary, note the instructions and labels on the packaging.
