V7

MOTORIZED TURNTABLE SOFTWARE CONTROLLER

THE TURNTABLE, EVOLVED. V7 is the turntable for today's DJ. V7 delivers outstanding feel and unprecedented power in a single-platter digital DJ controller. V7 is based around the acclaimed adjustable torque, motorized-platter design from Numark's NS7 and delivers a host of professional features including real vinyl and a slipmat that analog turntablists will love, plus turntable control at ten times the resolution of standard MIDI, mouse-less library navigation, and Strip Search virtual-needle drop. V7's link function enables you to combine multiple V7s with your choice of any mixer and your Mac or PC for a completely customizable, totally seamless performance environment.

V7 includes a professional 24-bit audio interface and contains premium faders, knobs, and buttons including controls for selecting tracks and blending audio effects in the included Serato ITCH software.

With natural vinyl feel, precise control, pristine sound, custom flexibility, advanced performance, and rock solid design, the turntable has evolved. Meet V7.

FEATURES:

- High-resolution turntable software controller
- Direct-drive, motorized turntable platter with high and low-torque settings
- Includes Serato ITCH software, compatible with Serato Scratch LIVE libraries
- Works with all DJ mixers for custom system configuration
- Extensive loop, cue, and track-access controls
- Strip Search virtual needle-drop control
- Complete effects controls for audio manipulation
- Premium, rugged, all-metal construction with high-end knobs and buttons
- Audiophile-grade audio circuitry with line inputs, system and cue outs
- Industry-first handoff between two DJs using two different computers
- Link V7s together for up to four virtual decks of control between two DJs
