

EXPEDITION XP1000

Portable PA with *Bluetooth*[®]

Samson's Expedition XP1000 Portable PA with *Bluetooth* is an all-in-one sound system that goes anywhere you want great sound, weighing just over 50 pounds. The Expedition XP1000 is *Bluetooth*-enabled, so you can pair it with your smartphone, laptop or tablet and play your music without any need for cables. It's perfect for musical performances, parties, presentations, classrooms and the rest of a rapidly pairing world.

A removable 10-channel mixer with 16 presets of 24-bit digital effects powers the XP1000 with an 1000-watt (2 x 500) lightweight, Class D amplifier. The mixer features four Mic/Line channels, each with XLR and 1/4-inch inputs for connecting microphones or line level/active instruments. It also includes three stereo input channels for connecting external devices like MP3 players, keyboards and more. Each channel features bass and treble controls. The XP1000 also includes a USB input for use with the Samson USB Digital Wireless System accessory (not included). In addition, the mixer has a phantom power switch to enable the integration of condenser microphones into your PA setup.

The XP1000's 2-way vented speakers give you a clean, powerful stereo sound. They produce deep bass tones, as well as wide dispersion and loud, crystal clear audio, through 10-inch low frequency drivers and custom 1-inch tweeters with 60° x 90° coverage. For display flexibility, these ABS, high impact plastic enclosures feature integrated 1 3/8-inch speaker stand mounts, as well as a 30° kickback design for use as floor monitors.

The Expedition XP1000 stands out as a complete portable PA system that is perfect for medium- to large-sized musical, educational, business and recreational applications
