- ✓ Portable 5-segment absorber and diffuser for microphones.
- ✓ Reduces the transmission of unwanted room effects like reflections, background noises and echoes through the microphone.
- ✓ Equally suitable for studio, live applications, vocals and instruments.
- ✓ The screen segments can be opened and closed in different positions.
- ✓ This ensures good adaptability to the recording situation.
- ✓ Can be mounted on any standard microphone stand or placed directly on a tabletop without a tripod.

For the transport and protective packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling. Ensure that plastic bags, packaging, etc. are properly disposed of. Do not just dispose of these materials with your normal household waste, but make sure that they are collected for recycling. Please follow the notes and markings on the packaging.
