

# TRIPOD STUDIO BOOM

## SB9600 | 12911

7" Mini boom extension with Posi-Lok rotating disks allows for radial adjustments that lock in place with locking teeth.

Midpoint breakpart boom arm with 5/8"-27 threads allow you to attach the 7" mini-boom at shortened boom length.

Boom clutch assembly features Posi-Lok 2" mating disks w/ 40 locking teeth.

Large ergonomic locking knobs adjust the boom and stand height.

7 lb. Sliding counterweight slides along boom to desired location and locks in place.

Rubber feet prevent slipping. Base spread adjusts to max footprint of 48".

## FEATURES AND BENEFITS

Our most affordable and most stable studio boom combines a tripod base, two straight booms and a 7" mini boom extension into one mean microphone support machine. The boom shafts can be attached for professional studios with ample space. Or remove the front half of the boom and use the back boom for project studios where space is a concern. With this fold-and-go convenience and steel tubing, this is a great item for any budget!

Our award-winning packaging is eye-catching and describes all of the product features.
