

Ambi Tube

Read and follow the safety instructions and all other instructions. Keep the manual for future reference. If you pass the product to another person, please pass the user manual with it.

Safety instructions

Intended use

The device is designed to generate lighting effects by attaching it to LED spotlights. Any other use or use under other operating conditions is considered to be improper and may result in personal injury or property damage. No liability will be assumed for damages resulting from improper use.

Use only with LED spotlights

Conventional spotlights produce great heat during operation. The Ambi Tube can obstruct the heat transfer which can result in overheating. Therefore, only use this device with LED spotlights.

Do not cover the air vents of the spotlight

Ensure that you don't cover the air vents of the spotlight when attaching the device. Otherwise, you risk overheating of the spotlight.

The Ambi Tube is not intended for suspended assembly.

Danger for children

Ensure that plastic bags, packaging, etc. are properly disposed of and are not in the reach of babies and young children. Choking hazard! Ensure that children do not touch the product. They could swallow small parts and choke! Never let children play unattended with the electrical devices.

Features
