

Assembly instructions

Attach the diffuser with four suitable screws using the supplied template to a sufficiently stable wall (assembly material is not supplied).

- Acoustical diffuser for diffusing sound reflections
- Ideal for recording studios, theatres and Hi-Fi environments
- Easy assembly and disassembly by mounting clips (not suitable for ceiling mounting)
- Effective frequency range: 1950 – 3440 Hz
- Dimensions: 600 mm × 600 mm × 100 mm
- Material: ash wood, lacquered
- Weight: 13 kg

This module is intended to be used to optimise the room acoustics. Any other use or use under other operating conditions is considered to be improper and may result in personal injury or property damage. No liability will be assumed for damages resulting from improper use.

Ensure that plastic bags, packaging, etc. are properly disposed of and are not in the reach of babies and young children. Choking hazard!

For the packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling. Ensure that plastic bags, packaging, etc. are properly disposed of. Do not just dispose of these materials with your normal household waste, but make sure that they are collected for recycling. Please follow the notes and markings on the packaging.
