COLUMN LINE ARRAY

Description

Suited to both indoor and outdoor use, the VERTUS CLA 403T features four 3" full range woofers. The VERTUS CLA 403T offers powerful new features for systems integrators facing challenging acoustic conditions. The column features an extruded aluminum construction and is characterized by an integrated passive directivity control system which delivers a consistent frequency-based vertical dispersion, and which offers users the choice of two angles, NARROW and WIDE, respectively 110°H x 25°V and 110°H x 50°V. The VERTUS CLA 403T is fully modular and include a 100V line transformer with switchable power levels, so multiple enclosures can be linked to increase low frequency control, high frequency dispersion and overall SPL.

The accessories match to the enclosures with sliding guides and integrated quick release pins for an exceptionally quick, easy and effective installation.

Functional features

Completely dustproof and waterproof, the enclosure's grille is covered with a special hydrophobic fabric to ensure absolute rejection of all atmospheric agents. Full EN 54-24 certification can be used for emergency and evacuation applications (in the event of a fire is equipped with a ceramic terminal block and thermal fuse). IP55 rating means suitable for outdoor installations. Ideal for fixed installations in reverberant environments where requiring heightened intelligibility of both music and voice.

Technical specifications

CONFIGURATION	1
RATED OUTPUT	50W / 28.2 Vrms
NOMINAL IMPEDANCE	16 Ohm
NOMINAL IMPEDANCE (100V line)	85 Ohm / 50 W 166 Ohm / 25 W
SENSITIVITY	91 dB (@1W/1m)
