

- Replacement antenna for the box MBA120W and the box MBA120W MKII
- Frequency of operation 863 MHz...865 MHz
- With a screw thread
- TNC connector

Technical specifications

Carrier frequency	UHF band (863 MHz ... 865 MHz)	
NF frequency response	60 Hz... 16 kHz, -3 dB	
Modulation type	Frequency modulation (FM)	
Frequency of operation	863 MHz ... 865 MHz	
Max. transmission power	10 mW	
Range (free field)	20 m	
Signal-to-noise ratio	> 100 dB	
Total harmonic distortion (THD)	< 0,1 %	
Ambient conditions	Temperature range	0 °C...40 °C
	Relative humidity	20 %...80 % (non-condensing)

This device is intended for use as replacement antenna for the receivers the box MBA120W and the box MBA120W MKII. Any other use or use under other operating conditions is considered to be improper and may result in personal injury or property damage. No liability will be assumed for damages resulting from improper use.

Ensure that plastic bags, packaging, etc. are disposed of properly and are not within reach of babies and young children. Choking hazard! Ensure that children do not detach any small parts (e.g. knobs or the like) from the unit. They could swallow the pieces and choke! Never let children unattended use electrical devices.

For the transport and protective packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling. Ensure that plastic bags, packaging, etc. are properly disposed of. Do not just dispose of these materials with your normal household waste, but make sure that they are collected for recycling. Please follow the notes and markings on the packaging.

This product is subject to the European Waste Electrical and Electronic Equipment Directive (WEEE) in its currently valid version. Do not dispose of your old device with your normal household waste. Dispose of this product through an approved waste disposal firm or through your local waste facility. Comply with the rules and regulations that apply in your country. If in doubt, consult your local waste disposal facility.
