

POSITIONING

For musicians and music lovers alike who don't want to sacrifice sonic quality for style and comfort, the Samson Z45 bridges the connection from musician to audience. Applying our experience in studio monitor development, the Z45 combines a striking design, warm, wide mid-range response, and collapsible ear cups with lambskin pads for superior comfort and flexibility.

FEATURES

Comfort

Sound quality means little if your headphones aren't completely comfortable. With genuine lambskin ear pads, the Z45 provides the ultimate in comfort for hours of fatigue-free enjoyment.

Sound

Our goal when designing the Z-Series was to create a line of headphones that isn't overly hyped but plays to its ideal customer. As you move up the line, you'll notice the sound field widen with subtle details becoming more obvious. The Z45 is noticeably wider and warmer in mid-range detail and maintains the clarity present throughout the line.

Design

Extremely durable, yet lightweight, the Z45 headphones sport sleek, low-profile design with distinct chrome accents, greater sound isolation, and collapsible ear cups that flip outward 90°. Detachable straight and coil audio cables add to overall convenience.

APPLICATIONS

- Studio Tracking
- Producers, DJ Performance Reference
- Mixing

SPECIFICATIONS

Model.....	Z45
Type.....	Closed-Back Dynamic, Over-Ear
Sensitivity (@1kHz) db/W.....	96dB
