

POSITIONING

For those who never sacrifice sonic quality, style, or comfort, the flagship Samson Z55 brings everything together for its audience. Applying our experience in studio monitor development, the Z55 delivers all elements of a mix with exceptional detail and clarity. No hype, just ultimate comfort and convenience.

FEATURES

Comfort

Sound quality means little if your headphones aren't completely comfortable. With real lambskin ear pads, the Z55 provides the ultimate in comfort and luxury for marathon mixing and listening sessions.

Sound

Our goal when designing the Z-Series was to create a line of headphones that isn't overly hyped but plays to its ideal customer. The flagship Z55 features a large 45mm driver, providing the widest, yet most balanced and detailed sound field of the line.

Design

Extremely durable, yet lightweight, the Z55 headphones sport a low-profile modern design, with chrome accents, greater sound isolation, collapsible ear cups that flip outward 90°, and three detachable audio cables.

APPLICATIONS

- Professional Recording Studio
- Field Recording
- Audiophile Music Listening
